LUTHVAR

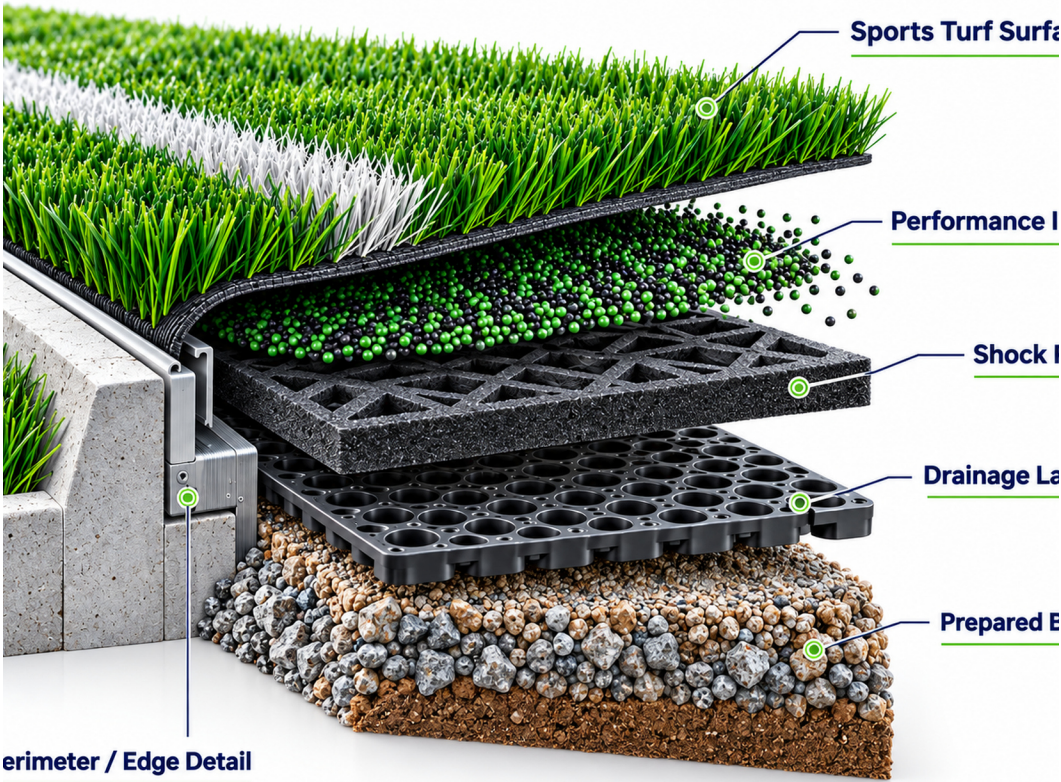

SPORTS TURF RANGE

A complete range of artificial sports turf systems for competition, training, education, recreation and commercial projects.

SYSTEM ANATOMY

LUTHVAR sports turf systems are designed as complete layered solutions. Each component contributes to performance, safety, drainage and long-term durability.

Perimeter / Edge Detail

PERFORMANCE

Consistent play and sport-specific response.

SAFETY

System selection matched to player and project needs.

DRAINAGE

Base and drainage planned for local site conditions.

DURABILITY

Configured for usage intensity and environment.

LUTHVAR

FOOTBALL TURF SYSTEMS

From elite stadiums to community facilities, LUTHVAR football turf systems are developed for consistent performance, durability and an exceptional playing experience.

ELITE

For professional and high-performance venues.

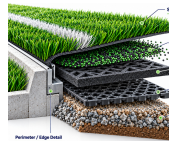

PERFORMANCE

For clubs, academies and high-use facilities.

TRAINING

For training fields and community sport.

REDUCED INFILL

Lower infill configurations for specific projects.

NON-INFILL

Infill-free options for selected applications.

HOCKEY TURF SYSTEMS

High-performance hockey surfaces for competition, club and community facilities, designed for consistent playability, durability and long-term value.

COMPETITION

For higher-level competition venues.

CLUB

For clubs, schools and training facilities.

MULTI-USE

For school and community projects where hockey shares the venue.

LUTHVAR

TENNIS & PADEL TURF SYSTEMS

Premium tennis and padel surfaces for clubs, schools, resorts and commercial developments, selected for the right playing characteristics, durability and project conditions.

TENNIS COMPETITION

For competition and performance courts.

TENNIS CLUB

For clubs, schools and community courts.
