TORVYR

CONNECTED STRENGTH & PNEUMATIC EQUIPMENT

TECHNICAL CATALOGUE / 2026

Twelve equipment models for commercial strength, sports performance and connected training facilities.

SUPPLY ONLY • PRODUCT SELECTION & PROJECT SPECIFICATION

Equipment imagery is withheld pending manufacturer-accurate unbranded photographic approval.

EQUIPMENT FIRST. SPECIFICATIONS CLEAR.

These are product categories, not new Apollo sub-brands. The manufacturer and original model identifier appear in the technical record, while the visible product title describes the equipment.

01 / INTELLIGENT STRENGTH

F152 · F155 · F162 · F153 · F159

Digitally guided exercise equipment and training profiles, dependent on exact model and software deployment.

02 / FUNCTIONAL + PNEUMATIC

T232 · T159 · T170 · T168 · T171 · T178 · T179

Cable training and pneumatic exercise stations for coached strength and performance facilities.

MANUFACTURER / ELIGA

The 2026 ELIGA catalogue identifies the equipment families and model names. The accompanying smart fitness presentation describes the broader connected software ecosystem, but does not validate each machine’s resistance range, dimensions, certification or exact software functions.

PUBLICATION NOTE

The images and machine-specific performance numbers must be separately approved before any model is presented as specification-verified.

INTELLIGENT STRENGTH

CONNECTED CHEST PRESS

APPLICATION

Digital upper-body pressing

TYPICAL PROJECTS

Commercial strength floors; supervised athlete training

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**F152**
Equipment category	INTELLIGENT STRENGTH

PRODUCT NOTES

Assessment-driven training can form part of the manufacturer’s connected fitness ecosystem.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

INTELLIGENT STRENGTH

CONNECTED LAT PULLDOWN

APPLICATION

Vertical-pulling training

TYPICAL PROJECTS

Strength and conditioning centres; commercial fitness

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**F155**
Equipment category	INTELLIGENT STRENGTH

PRODUCT NOTES

Digitally guided machine within the manufacturer’s AI strength family.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

INTELLIGENT STRENGTH

CONNECTED LEG EXTENSION

APPLICATION

Knee-extension exercise

TYPICAL PROJECTS

University performance and commercial training

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**F162**
Equipment category	INTELLIGENT STRENGTH

PRODUCT NOTES

Selected-machine adjustment and digital workout functions require configuration review.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

INTELLIGENT STRENGTH

CONNECTED SEATED ROW

APPLICATION

Seated horizontal pulling

TYPICAL PROJECTS

Commercial gyms; institutional training

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**F153**
Equipment category	INTELLIGENT STRENGTH

PRODUCT NOTES

Compatible facility profile and reporting workflows to be scoped at quotation.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

INTELLIGENT STRENGTH

CONNECTED LEG PRESS

APPLICATION

Lower-body pressing

TYPICAL PROJECTS

Performance centres; commercial fitness

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**F159**
Equipment category	INTELLIGENT STRENGTH

PRODUCT NOTES

Product is identified in the manufacturer’s AI strength listing.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

FREE STRENGTH / FUNCTIONAL

FUNCTIONAL TRAINER

APPLICATION

Cable-based multi-exercise station

TYPICAL PROJECTS

Coached fitness and functional strength areas

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T232**
Equipment category	FREE STRENGTH / FUNCTIONAL

PRODUCT NOTES

Shown in the manufacturer’s free-strength range; exact connected functions are not established.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC LEG PRESS

APPLICATION

Pneumatic lower-body press

TYPICAL PROJECTS

Performance training; specialist strength floors

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T159**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Manufacturer catalogue identifies pneumatic training family; model details require formal data sheet.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC RUNNER

APPLICATION

Resisted running movement

TYPICAL PROJECTS

Speed and conditioning centres

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T170**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Exercise-specific operating range and mechanical resistance details require confirmation.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC SQUAT

APPLICATION

Squat-pattern training

TYPICAL PROJECTS

Strength and conditioning

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T168**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Resistance settings and calibration require model-specific documentation.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC SEATED CALF

APPLICATION

Seated calf training

TYPICAL PROJECTS

Commercial gyms; athlete strength rooms

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T171**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Dimensions and working loads not yet verified.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC BELT SQUAT

APPLICATION

Belt-squat exercise

TYPICAL PROJECTS

Performance centres; coached strength facilities

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T178**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Manufacturer model identified; supplied components and load limits to be confirmed.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

PNEUMATIC PERFORMANCE

PNEUMATIC DEADLIFT

APPLICATION

Deadlift-pattern training

TYPICAL PROJECTS

Strength and athletic-performance spaces

TECHNICAL IDENTIFICATION

Manufacturer	ELIGA
Manufacturer model	**T179**
Equipment category	PNEUMATIC PERFORMANCE

PRODUCT NOTES

Required resistance range and operator guidance to be confirmed for selected package.

MODEL-SPECIFIC DATA PENDING: drawings, sizes, ratings, power needs, certifications, spare parts and warranty.

COMPLETE FACILITY PATHWAYS

PERFORMANCE LAB

Force plates, VBT, athlete timing, sprint training and reporting for coached assessment.

CONNECTED STRENGTH ROOM

Selected intelligent-strength stations, compatible pneumatic equipment, functional training and manufacturer software.

COMPLETE SMART TRAINING FACILITY

Assessment, strength, cardio, onboarding and training management. Software, hardware compatibility and athlete data terms checked before quotation.

TECHNICAL VERIFICATION CHECKLIST

01 Model-specific dimensions, weight and service clearances

02 Mechanical ratings, adjustment ranges and resistance limits

03 Electrical supply, networking and control requirements

04 Equipment drawings, safe-use instructions and installation conditions

05 Spare-parts and service support by destination country

06 Complete product-specific warranty schedule in writing

07 Exact PAMFA / PAMFA+ compatibility, hosting and storage terms

08 Data protection, privacy, exports, access rights and retention

09 Independent safety / conformity evidence relevant to project destination

10 Image and branding approval against factory photographs
